INDEX.

ABBREVIATED telegram addresses, 255
Absolute electrometer giving continuous indications, 370
„ spherical electrometer, 418
Accident to Mr. J. Aylmer, 36
Accumulator plates, 257
Accumulators, The transport of, 80
Adelaide Jubilee Exhibition, 554
Admiralty survey, 310
Alleged fraud by an electrician, 38
„ libel on Mr. Hugh Watt, 400, 579, 601
Alternating currents and their part in electro-technics, 133, 157
American arc lighting industries, 452
„ electric plant, The first, 256
„ National Electric Light Association, 191, 210, 252, 276
„ newspapers, Electrical subjects in, 61
„ papers on electrical subjects, 216
„ telephone patents, 14, 60, 89, 91, 146, 192, 225, 275, 553
Ampèremeter, A simple, 481
Ancient electric locomotive, 356
Anglo-American Brush Corporation, 121
„ „ Telegraph Company, 61
Another death from electricity, 380
„ fatal accident, 80
„ searcher rewarded, 579
Antwerp Exhibition, The tramcars at the, 101
Aperiodic galvanometer of Deprez-d'Arsonval, employed as a ballistic galvanometer, 551
Apparatus for reproducing at pleasure an invariable quantity of electricity, 424
„ for verifying the manufacture of electric fuses, 543
Appeal on behalf of a much-valued servant, 256
Application of springs to polarised telegraph instruments, by K. Gulstad, 29
Appointment, An important, 60
Arago, 237
Arc lighting plants, 452
Are secondary generators reliable, 358
Armington and Sims engines, 119
Arrest by means of the telephone, 427
Atmospheric observations, 401
Aurora Borealis, 62
Australian papers please copy, 309
Automatic terminal, M. de Combette's, 149
Ayrton and Perry on minimum waste and maximum economy, 325
„ „ on the seat of the electromotive forces in a voltaic cell, 115
„ „ on self-induction, 328
„ Perry's meters, 62

BALL dynamo, The, 217
„ electric lighting system, The, 119
Ballaarat School of Mines, 580
Balloon signalling system, Mr. Bruce's, 102
Barnes's friction clutch pulley and cut-off coupling, 205
Batteries, Galvanic, 39
„ Primary, 102, 169, 513, 569, 601
„ Running down of, by Oliver J. Lodge, 136
„ for scarf pins, 204
„ Secondary, 194, 205, 334
„ cells, Improved, 281, 309
Battery, Chloride of silver, 580
„ efficiency, Secondary, 123
„ The Lee-Chaster, 269
„ solution, A new depolarising, 38
Bell Telephone case, The, 60, 91, 146, 595
„ telephones, The manufacture of, 601
Bernstein lamps, 581
Berry, Ernest L., on the electric light at the Prince's Theatre, 250
Bichat and Blondlot, MM., on an absolute electrometer, 370
Birmingham steam tram, Fatal accident with the, 215
Blackpool tramline, The, 101, 195, 308, 424, 428
„ „ Complaints against, 195
Blasting operations, Great, 400
Blaze, A powerful, 58
Bleaching by electricity, 114, 144, 570, 602
Blondin outdone, 38
Blondlot and Bichat, MM., on an absolute electrometer, 370
Bravery, Recognition of, 120
Brighton electric railway, 169, 193, 553
British Association, 81, 451
Brooks, David, on some considerations regarding induction, 54
Bruce's balloon signalling system, 102
" Brush," The newest, 453
Brush cut-out, The, 600
Burglar alarms, 357
Buried miners, Finding, 569

CABLE between America and Australia, Proposed, 102
„ to Australia, Direct, 280
„ broken, 335, 378, 450, 481
„ charges, German, 426
„ companies' receipts, 523
„ „ reserve funds, 23
„ competition in the Atlantic, 378
„ conference, 454, 462, 479, 507
„ The Fastnet Light, 310
„ Fouling an ocean, 507
„ the French Atlantic, Another fracture of, 450, 479
„ inspection, 399
„ Laying a, 12, 34
„ New South Australian, 402
„ „ Zealand-Australia, The proposed, 600
„ news, 147
„ ocean telephone, Size for an, 334
„ Persian Gulf, The new, 95
„ Proposed trans-Pacific, 148
„ rate-cutting war, 399
„ rates, 378, 426, 584
„ record beaten, 147
„ revenues, 513
„ rupture in deep water, 481
„ ship *Buccaneer*, 308, 379
„ The Singapore-Penang, 399
„ The West African, 103, 225, 233, 523
„ „ India and Panama, 450
„ working, An improved method of, by J. Ebel, 390
Cablegrams, Charge for press, 37
Cables, Atlantic, 15, 378
„ Australian, 479
„ More Anglo-American, 60
„ Proposed new, 282
„ Saved by the Commercial, 282
„ submarine, The protection of, 37, 334, 479
Canadian telegraph lines, 601
Carbon conductors in glow lamps, 581
Carbonisation of iron, 333
Carbonising lamp filaments, 507
Carhart, H. S., on surface transmission of electrical discharges, 465
Cells for accumulators, 452
Central station electric lighting in America, 122
„ „ „ „ at Tours, 270
Characteristics of alternating current dynamos, 247
Charge and discharge indicator for secondary batteries, 205
Charges for Press cablegrams, 37
Charging secondary batteries, 194, 334
Cheaper telegraphy, 553
Chloride of silver battery, 580
City and Guilds of London Institute, 217, 428

CITY NOTES—*continued.*
Western Union Telegraph Company, 83, 239
Collapse of the Electric Lighting Bills, 602
Colonial telegraphs, 601
Commercial Cable Company, 553
,, efficiency of dynamo machines, Testing the, 256
,, ,, ,, incandescent lamps, 62
Communication with moving trains, 357
Company promotion, 508
Comparison of locomotives, automotors and tramcars worked by stored-up energy, by A. Reckenzaun, 464
Comparative study of the performance of the ring armatures of dynamo machines, 564
Competitive tests of the Edison and Weston dynamos, 4
Complaints against the Blackpool tramway, 195
Compressed air motors for electric lighting, 441
Conductors, The resistance of, 256
Conference on submarine cable protection, 571
Constant currents, 581
Convenient method of finding current, by E. C. Rimington, 371
Conversazione, 195, 580
Correction of an error in electro-dynamics, 269

CORRESPONDENCE—
American telephone patents, by Jerome Carty, 85
,, ,, patents, by W. C. Barney, 240, 292, 459, 535, 561, 586
Analogies of generators and motors, by Carl T. Blanch Brain, 87
Arc and glow lamps, by Whittaker & Co., 605
Archimedes Redivivus, by "Hiero," 21
Bassano case digested, by "l'Homme qui Rit," 317
,, Slater telephone case, by "F. T. H.," 339
Bell telephone patents, by W. C. Barney, 108
Blue photos from tracings, by Alex. P. Trotter, 131
Brake H.P. of gas engines, by J. H. Greenhill, 66
Brockie-Pell arc lamp, by James Brockie, 44
Cable messages, by "Bonco," 174
Cables for the West Coast of Africa, by "A Brazilian Submarine Telegraph Shareholder," 109
Central station lighting, by Henry Turner, 534
Charge and discharge indicators for secondary batteries, by John S. Sellon, 242
,, ,, discharge indicators for secondary batteries, by Henry A. Kent, 243
,, ,, discharge indicators for secondary batteries, by Sir Thomas S. Bazley, 264, 366
Commercial efficiency of incandescent lamps, by Henry Crookes, 108
Compound wound dynamos in parallel, by E. W. Rice, Jun., 339
,, ,, dynamos in parallel, by A. Grundy, 366
,, ,, dynamos in parallel, by P. Cardew, 366
Correction, by K. Gulstad, 66
Curious contact, by C. W. and A. P. Cotterell, 21
Deprez machines, by Paget Higgs, 86
Discovery of electro-magnetism, by J. J. Fahie, 175
Distribution of electricity, by R. C. Jackson, 244
Dolbear and the telephone, by Coates and Macdonald, 263
Domestic electric lighting, by A. J. Littleton, 43
,, ,, lighting, by J. H. Greenhill, 44
,, ,, lighting, by G. Percival, 86
Dynamo as a generator and as a motor, by W. M. Mordey, 131
,, engines, by Alley and Maclellan, 606

CORRESPONDENCE—*continued.*
Dynamo testing, by P. Cardew, 242
,, ,, ,, Lord Rayleigh, 242
,, ,, ,, W. E. Hayne, 264
,, ,, ,, R. Mullineux Walmsley, 291, 365
,, tests, by Herbert W. Butler, 291
